

Your menu, in motion.

Turn a boring PDF or written menu into a **cinematic video menu** your diners watch by scanning a QR code at the table — auto-translated into English, Spanish & Portuguese. No app, any phone.

WHY IT PAYS FOR ITSELF

Order faster

Diners see the dish and decide in seconds. Faster service, quicker turns, lower staff load.

Order more

They didn't want dessert — until they saw it. Video lifts the average ticket on every table.

Order smarter

Tourists finally understand the menu and pick your best, highest-margin dishes — not the cheap, safe one.

HOW IT WORKS

- 1 One photo per dish.** Your FoodLens partner can even shoot them for you.
- 2 We make the videos** and build your menu — the cinematic part is on us.
- 3 Your QR goes live** on the tables. Up and running in days, not weeks.

FOUNDING OFFER — FIRST 100 RESTAURANTS ONLY

The full **Premium** video menu — set up for you.

Concierge setup + **2 months free**. We build your account and shoot your dishes, so you barely lift a finger — and you lock in Founding Member status for life.

See a live menu in 10 seconds.
